

October 25, 2019
Update 43

Windfarm construction

A milestone is due in the coming weeks with the final concrete pour scheduled. This achievement will result in truck movements being again reduced around site.

Did you want to have a closer look at the project – if so we are holding a open day this Sunday October 27, for further details head to www.stockyardhillwindfarm.com.au/openday.

With 82 towers now delivered to site we are well over halfway, however there are still plenty of over dimensional truck movements (blades, towers, generators and nacelles) to arrive on site. The vehicle movements occur six mornings per week. These movements have been approved as part of the project's Traffic Management Plan.

The Stockyard Hill Wind Farm team aims to keep local disruption to a minimum and apologises if construction activities cause any inconvenience.

To find out more information about the project, head into our shopfronts located in Beaufort and Skipton or to www.stockyardhillwindfarm.com.au or call 1800 753 730.

Transmission Line

Transmission Line works are now functionally complete, apart from some varied minor works and final checks. Landing spans into the wind farm substations will commence next week and should take approximately two weeks to complete.

Removal of access tracks is now well underway, with the focus for the next month being on reinstatement works and handover from various landowners.

Haunted Gully Terminal Station

500kV of electricity now comes through the terminal station, and the terminal station is now a live working environment. The 500kV switchyard is now complete and final testing and commissioning is taking place, with the adjacent 132kV switchyard soon to be completed.

Crews will supervise removal of the redundant 500kV towers following completion of the cutover of high voltage wires onto new lattice tower structures.

For any queries regarding Stockyard Hill Wind Farm Transmission Line or the Terminal Station, please contact AusNet on phone - 1800 989 192 or email SHWF@ausnetservices.com.au
