Notes

The information is in draft form and is therefore indicative in nature only. The recipient is on notice that the release of the information to any other party may have a significant adverse impact on the business affairs of the company. The information must not be provided to any other party. If this information falls within the scope of a formal request for information, the relevant Government agency/ies must not release the information without first consulting with the company.

This map does not contain all datasets used to generate the transmission line corridor options. These datasets are a sample of the major constraints identified during the selection process.
